THE FORTY-SECOND ANNUAL REPORT  
OF THE  
BOARD OF MANAGERS  
OF  
ST. LUKE'S HOSPITAL,  
FROM

OCTOBER 1, 1899, TO SEPTEMBER 30, 1900.

---

Notwithstanding the unprecedentedly large service of the year ending September, 1899, contingent upon illness following the Spanish-American war, the year just closed shows an increase of 3,313 hospital days, and the service of the Out-Patient Department an increase of 3,932 visits.

The constantly enlarging demands upon the institution by the sick poor of New York is, however, not met by a proportionate income.

It has hitherto been our boast that no worthy sufferer, whose disease rendered him eligible under the rules of the Hospital, has been turned away without relief; this can no longer be said, for lack of room during the year has frequently caused the Administration to reluctantly deny admission to patients who were acutely ill, and who urgently needed hospital care. This condition can be remedied only by large additional income.

The current expenses of the year have been \$62,043.43 in excess of the current income.

The demand for private-room service has materially increased, and through this source chiefly the House Receipts were \$23,285.82 more than any previous year.

This service not only benefits many persons in well-to-do circumstances, such as those taken ill in hotels or boarding-houses in the city, or those who cannot obtain in the places where they

live skilled surgical operations and care, but it also yields a profit to the institution, enabling it thereby to do a larger charitable work than could otherwise be accomplished.

This increased demand for private service, together with the fact that rooms now being used for that purpose are much needed for the Training School, make it desirable that a private-patients' pavilion be soon erected, and this matter must shortly engage the earnest attention of the Board.

In making its report, and in asking for further help and co-operation, the Management begs to remind the public that the beneficent work and influence of the Hospital are not to be gathered from its statistics alone; for, besides the treatment of the sick committed to its care, there is a large educational work constantly going on within its walls, and St. Luke's, as one among the latest built of the larger hospitals of the country, is much visited by people engaged in similar work from nearly all parts of the world, and the results of its experience are sought by institutions not only extant, but by many that are prospective: thus, as an educational factor, its work is far-reaching.

During the year the gifts and legacies were as follows:

Balance of legacy on the estate of Benjamin S. Lee...	\$115 00
On account of legacy of Alexander M. Proudfit.....	11,200 00
Legacy of Cornelius Vanderbilt.....	50,000 00
Additional payment on account of legacy of Charles H. Contoit .....	7,000 00
Additional payment on account of legacy of Alexander M. Proudfit .....	2,500 00
Additional payment on account of legacy of Charles H. Contoit .....	40,000 00
Additional payment on account of legacy of Charles H. Contoit .....	20,004 87
(By special arrangement \$337.50 have been taken from the legacy of Alexander M. Proudfit and trans- ferred to endowed beds, to make good a deficiency in the endowment of a bed by his sister, Susan Proudfit.)	
One bed endowed in perpetuity by Miss Mary A. Astor Woodcock, in memory of her brother, George Washington Woodcock .....	5,000 00

One bed endowed in perpetuity by Miss Mary A. Astor Woodcock, in memory of her sister, Harriet Emma Woodcock .....	\$5,000 00
One bed endowed in perpetuity by Joseph Goulding, in memory of his sister, Kate Goulding.....	5,000 00
Additional payment on account of the endowment of a bed by Susan W. Proudfit.....	912 50
Final payment on bed endowed in perpetuity by Susan W. Proudfit .....	337 50
Second instalment on account of the endowment of bed by Edwin Parsons .....	1,000 00
One bed, No. 75, endowed by the House of Rest for Consumptives, under contract of June 1, 1891...	7,500 00
One bed endowed in perpetuity by Mrs. Elizabeth C. Judd, to be known as "The Henry B. Judd Bed for Church Missionaries".....	5,000 00
Final payment on account of bed endowed in perpetuity by the children of Philetus H. Holt.....	2,000 00
One bed endowed in perpetuity by Mrs. Harriet R. Smedberg, in memory of her son, to be known as "The Hugh Auchincloss Smedberg Bed".....	5,000 00

On May 1st the Rev. George S. Baker, D.D., after twenty-three years of faithful and efficient service as Pastor and Superintendent of the Hospital, was, owing to impaired health, relieved from active duty, and on July 1st he became Pastor and Superintendent *emeritus*, with an annuity.

Upon the retirement of Dr. Baker, the Rev. George F. Clover, who for eight years had been Assistant Pastor and Superintendent, and had shown marked ability, as well as great zeal and discretion, in the performance of the duties of that office, was appointed Acting Pastor and Superintendent, and his management of the institution in this capacity having been in all respects successful, it is to be anticipated that his title will be changed to that of Pastor and Superintendent at the meeting of the Board which follows the annual election.

On March 1st, Mrs. L. W. Quintard severed by resignation her connection with the Hospital as Directress of Nurses.

Mr. Henry Parish, Mr. W. C. Egleston, and Mr. Philip G. Weaver tendered during the year their resignations as Managers

of the Hospital. Mr. Parish had been a member of the Board since 1885, Mr. Egleston since 1894, and Mr. Weaver since 1874. These resignations were accepted with much regret.

On May 28th, after a service of eleven years as Attending Surgeon, and seventeen years as Consulting Surgeon—periods marked by devotion and professional success—Dr. Robert F. Weir terminated by resignation his connection with the Hospital.

Miss A. W. Goodrich, formerly the Superintendent of the Training School of the Post-Graduate Hospital, having been appointed Directress of Nurses, assumed her tenure of office in that capacity on May 1st.

In conclusion, it may truthfully be added that the year just closed has exceeded all previous years in the history of the Hospital, not only in the extent but in the character of the work and the good that has been accomplished.

By order of the Board of Managers,

GEORGE MACCULLOCH MILLER,

*President.*

HOFFMAN MILLER,

*Secretary.*

SPECIAL APPEAL

## CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this century fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need of these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the wards of the Hospital which are opened for patients are kept more continuously full.

The work of the Hospital for the past year is found on page 28. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 14.

The number of subscribers last year was 90.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

# THE TRAINING SCHOOL FOR NURSES.

*Year ending September 30, 1900.*

---

Considering the changes that have transpired in the Nursing Department during the year—the resignation of the Directress and of the Assistant Directress, the carrying on of the work temporarily by a recent graduate of the School, and afterward the appointment of a new Directress—the efficiency of the work has in no wise suffered, neither has the general standard of excellence been diminished.

The scheme of study for the ensuing year will not differ materially from that of the past. It is proposed, however, to arrange the work so as to graduate the members of the School in Classes, at stated times, rather than as individuals whose term of student life has expired, as has hitherto been the custom. In making this change it is probable that graduating exercises will have to be twice held during the year of transition from the one system to the other.

For obvious and local reasons the Post-Graduate Course, provided at the beginning of the year, has not been utilized, but it is thought that not a few graduates of the School are now anxious to take advantage of the opportunity to become familiar with newer methods; and, therefore, it is deemed wise to hold the course open for another year at least, under the following conditions:

*First.*—Only two such nurses shall be received at one time, who shall have their board, but no salary, for the service they may render.

*Second.*—They may select the Department in which they desire special instruction.

*Third.*—They will be admitted and assigned to duty by the Directress of Nurses as Junior or Senior Nurses or as supernumeraries in the Department in which they serve, and while in

the Hospital will be expected to conform strictly to the discipline of the School.

*Fourth.*—To those who pass successfully through this course a certificate of this fact will be given.

The statistics for the year are as follows:

Applications received .....	160
Applications declined .....	50
Applications accepted .....	101
(Applicants only who have received and sent in application forms are included in the above; mere letters of application are not included.)	
Probationers admitted .....	62
Probationers dropped .....	28
Training School admitted .....	34
“ “ dropped .....	8
“ “ graduated .....	25
The present number of pupil nurses.....	73
“ “ “ “ probationers .....	12

It would be a stimulus to the School and a benefit to education along the lines of nursing if a scholarship were founded to give to the Graduating Nurse of this School, best adapted to Institutional work, a course in Hospital Economics, at the Teachers' College of Columbia University. Such foundation would require \$500 per annum, and it is earnestly hoped that some friend of the Training School will be minded to make provision for this purpose.

The outline of class work for the course is as follows:

#### FIRST YEAR.

First three months:

Materia Medica, "Potter."

The religious services of the house have continued as heretofore. In the morning on each week day a short service has been held in every ward, and at six o'clock Evening Prayer has been said in the Chapel.

On Sunday the services have been at 10.30 A.M. and 4 P.M. The Holy Communion has been celebrated in the Chapel on the first Sunday in each month and on the major festivals of the Church year.

There has also been a celebration of the Holy Communion for the members of the house at 6 A.M. on the third Sunday of each month.

Patients confined to their beds or unable to leave their ward have the Sacrament of the Holy Communion administered to them by a series of Ward Services. These services consist of the Communion office, a short address and singing, if the physical condition of the patients permits.

The clergy of the house are always ready to administer the offices of the Church to patients when such ministrations are desired.

The pastoral statistics for the year are as follows:

Baptized .....	18	
Confirmed .....	38	
Marriages .....	6	
Funerals .....	109	

Holy Communion:

In Chapel .....	32	times
In Wards .....	79	"
<i>In extremis</i> .....	43	"

We are much indebted to the sewing societies of several of the churches of the city, and to the "Thursday Lenten Sewing Class," which have done much to add to the comfort of the patients by their donations of various articles of clothing.

St. John's Guild during the year provided an outing for the children on their Floating Hospital, and invited them to a second one, which, owing to existing circumstances, we were unable to accept.

The St. Luke's Guild, of Spring Valley, N. Y., has continued its zealous work for the Hospital in gifts of money, edibles, and articles of clothing.

A volunteer chorus has regularly, with the exception of the summer months, sung in the Chapel on Sunday afternoons; the service thereby has been made much more attractive, and we beg to tender our grateful thanks to the members of this chorus.

Boring bone ends for ununited fracture of fibula.....	1
Excision of astragalus for club-foot.....	1
of exostosis of femur .....	1
of metacarpo-phalangeal articulation .....	2
of knee-joint for tubercular arthritis .....	3
of tarsus for tubercular arthritis .....	1
Incision and curetting, for periostitis of femur.....	1
for periostitis of tibia and fibula.....	1
Incision and drainage, of alveolar abscess.....	2
of lumbar abscess .....	1
for necrosis of jaw .....	1
for tubercular shoulder .....	1
for suppurative arthritis of elbow .....	1
Incision and curetting for tubercular arthritis of wrist.....	2
Anchylosis of knee .....	1
Osteotomy for genu valgum .....	6
for hallux valgus .....	1
for deformity of tibia .....	1
for acute osteomyelitis of tibia .....	2
for chronic osteomyelitis of femur .....	3
for chronic osteomyelitis of superior maxilla.....	1
for chronic osteomyelitis of tibia .....	5
Resection of knee for suppurative arthritis.....	4
of elbow .....	1
of rib and drainage for empyema.....	4

Incision and drainage for empyema .....	I
Sequestrotomy of ulna for osteomyelitis .....	I
of toe for osteomyelitis .....	I
Resection of elbow for tuberculous osteitis.....	I
Thoracoplasty (Schéde's op.) .....	I
Trephining for empyema of frontal sinus.....	I
for mastoiditis .....	I
OPERATIONS ON TENDONS AND FASCLE.	
Tenotomy for contractures of leg.....	3
for contractures of sterno-mastoid .....	2
for talipes .....	I
Lengthening tendon for extensor tendons of hand.....	I
OPERATIONS ON NERVES.	
Tic douloureux .....	I
Facial neuralgia (Carnochan's op.).....	3
Spasm of facial nerve, stretching.....	I
OPERATIONS ON BLOOD-VESSELS.	
Excision of carotids for sarcoma of cheek.....	I
Ligation of innominate artery for aneurism of subclavian.....	I
of external iliac for aneurism of femoral.....	I
of subclavian and common carotid for aneurism of subclavian.	I
Angioma of hand, setons .....	3
Ligation of internal saphenous vein for varicose veins.....	9
and excision of varicose veins .....	7
OPERATIONS ON HERNIA.	
Femoral .....	5
Inguinal, Bassini's .....	43
Littre's femoral .....	I
Strangulated femoral .....	4
inguinal .....	2
Umbilical .....	3
Ventral .....	12
OPERATIONS ON CONGENITAL DEFORMITIES.	
Branchial cyst, excision .....	I
Cleft palate, staphylorrhaphy .....	I
uranoplasty .....	I
Hare-lip .....	3
Persistent thyroglossal duct .....	I
Spina bifida .....	I
PLASTIC OPERATIONS.	
Plastic operation on ears .....	I
on face .....	3
on mouth .....	I
on nose .....	2
on penis .....	2
Skin grafting .....	9
after Schéde's .....	2
MISCELLANEOUS OPERATIONS.	
Alveolar abscess .....	I
Excision of carbuncle .....	I
of bursa .....	2
of tubercular glands of neck .....	24
of tubercular glands of axilla .....	4
of tubercular glands of inguinal region.....	I

Incision of abscess of face .....	1
of abscess of thigh .....	3
of neck .....	2
for abscess of breast .....	2
for abscess of iliac region .....	3
for cellulitis of hand .....	2
for cellulitis of leg .....	5
for cellulitis of inguinal canal .....	1
for perforating ulcer of foot.....	1
Excision of glands of neck (Hodgkin's disease).....	1
Incision for deep cervical adenitis .....	1
for suppurative inguinal adenitis .....	1
Tonsillotomy .....	3
Tetanus, cerebral injections of antitoxin.....	1

#### OPERATIONS ON KIDNEYS.

Nephrotomy for stone in kidney .....	7
for pyelo-nephritis .....	2
for tubercular kidney .....	1
Nephrectomy for sarcoma .....	1
for pyo-nephrosis .....	3
Nephrorrhaphy .....	15
double .....	1

#### OPERATIONS ON ŒSOPHAGUS, RECTUM, AND ANUS.

Cauterization for prolapse .....	2
Hemorrhoids. Allingham's op.....	27
Whitehead's op.....	5
Incontinence of fæces after hemorrhoid op. Repair of sphincter..	1
Incision and drainage, for ischio-rectal abscess.....	3
for ischio-rectal fistula .....	2
for fistula in ano .....	13
Stretching of sphincter for fissure in ano .....	1
Stricture of œsophagus. Abbe's string op.....	1

#### ABDOMINAL OPERATIONS.

Cœliotomy for appendicitis, catarrhal .....	24
chronic .....	15
gangrenous .....	7
with general peritonitis .....	6
perforative with abscess .....	37
recurrent .....	40
for abdominal sinus .....	5
for cholecystostomy. Ideal operation for obstructive jaundice.	2
for cholecystotomy for gall-stones .....	14
for cholecystenterostomy for carcinoma of head of pancreas..	1
for intestinal obstruction, chronic, colostomy .....	5
for intestinal obstruction, chronic, enterostomy .....	3
for tubercular peritonitis .....	4
for suppurative peritonitis .....	5
for abscess of liver .....	1
Exploratory cœliotomy .....	2
for abdominal abscess .....	4
for carcinoma sigmoid flexure .....	4
for perforation typhoid ulcer .....	1
for carcinoma of liver .....	2
for angioma of small intestine. Excision.....	1
for carcinoma of pylorus .....	1
for carcinoma of pylorus, perforating .....	1
for carcinoma of small intestines .....	1

## STOMACH OPERATIONS.

Cœliotomy, omental anastomosis for cirrhosis.....	3
pylorectomy and gastro-enterostomy for carcinoma.....	2
pyloroplasty .....	2
gastro-enterostomy for carcinoma of pylorus .....	1

## OPERATIONS ON FEMALE GENITO-URINARY ORGANS.

Amputation of cervix .....	3
Anterior colporrhaphy for cystocele .....	4
Alexander's operation for retroversion .....	17
Cœliotomy for atresia of ureter .....	1
for cystic ovary .....	6
for dermoid cyst of ovary .....	2
for ectopic gestation .....	3
for ruptured ectopic gestation .....	1
for intra-ligamentous cyst .....	5
for myomectomy .....	4
for myoma, abdominal hysterectomy .....	31
for carcinoma uteri, abdominal hysterectomy .....	6
for sarcoma uteri .....	2
for prolapsed ovaries, oophorectomy .....	5
for ovarian cyst .....	17
for pyosalpinx (single) .....	17
for pyosalpinx (double) .....	33
for salpingitis .....	7
for perforation of uterus, general peritonitis .....	1
for tubo-ovarian abscess .....	20
for double hydrosalpinx .....	1
Cœlio-hysterorrhaphy for retroversion .....	48
for procidentia .....	1
Curettement .....	126
Cystoscopy .....	10
Enucleation of cyst of vaginal wall .....	1
Excision of uterine polypus .....	1
of hydatid mole .....	1
Repair recto-vaginal fistula .....	2
Incision of abscess of vulva .....	1
Perineorrhaphy .....	53
Trachelorrhaphy .....	28
Vaginal drainage for pyosalpinx .....	19
for pelvic abscess .....	1
for cystitis .....	1
Vaginal hysterectomy for carcinoma uterus .....	3
for complete prolapse .....	1
Stenosis of cervix, dilatation .....	1

## OPERATIONS ON MALE GENITO-URINARY ORGANS.

Circumcisions .....	8
Hydrocele of cord .....	1
excision of sac .....	3
Plastic operation for hypospadias .....	1
Suprapubic cystotomy for calculus .....	3
for hypertrophied prostate .....	3
Urethrotomy for strictures, external .....	6
Undescended testes. Fixation in scrotum.....	3
Varicocele, excision .....	8
subcutaneous ligation .....	1
Perineal section for periprostic abscess .....	2
for calculus .....	1
for abscess of seminal vesicle and prostate.....	1
Removal of vesical calculus and recto-vesical fistula.....	1

# OPERATIONS ON TUMORS.

Excision of adeno-fibroma breast .....	5
of pharyngeal adenoids .....	1
of carcinoma suprarenal capsule .....	1
of recurrent carcinoma of axillary glands.....	1
of recurrent carcinoma of rectum .....	1
of carcinoma of vagina .....	1
of carcinosis of peritoneum .....	1
for epithelioma of face .....	1
for epithelioma of ear .....	1
for epithelioma of lip .....	1
for epithelioma of rectum .....	3
Kraske for carcinoma of rectum .....	2
Excision for epithelioma of scrotum .....	1
of epulis .....	3
of lipoma of back .....	2
of lipoma of neck .....	1
of carcinoma submaxillary glands .....	1
of sarcoma of cheek .....	2
of sarcoma of spinal canal .....	1
of sarcoma of leg .....	1
of sarcoma of cervical glands .....	1
for goitre .....	12
of dentigerous cyst of superior maxilla.....	1
of dermoid cyst over sacrum .....	2
of endothelioma of parotid .....	2
of endothelioma of submaxillary gland .....	1
Amputation of breast for carcinoma.....	33

The death rate from all causes for the year has been 13.04 per cent.

Excluding cases in the consumptive wards, the death rate would be 9.7 per cent.

## PATHOLOGIST'S REPORT.

During the year ending September 30, 1900, there have been performed ninety-three autopsies. These may be classified as follows:

### NERVOUS SYSTEM.

Abscess of brain ..... 1

### VASCULAR SYSTEM.

#### Pericardium.

Acute purulent pericarditis ..... 1

#### Heart.

##### Endocarditis.

Aortic regurgitation ..... 2

Mitral regurgitation ..... 3

Mitral stenosis ..... 1

##### Muscular lesions.

Fatty heart (marked) ..... 3

##### Vessels.

Aneurism of aorta ..... 2

### RESPIRATORY SYSTEM.

#### Lungs.

Acute bronchitis ..... 1

Acute pneumonia ..... 7

Lobar ..... 3

Lobular ..... 1

Chronic interstitial pneumonia ..... 1

Empyema ..... 1

Phthisis ..... 21

Stenosis of bronchi by pressure of lymph nodes..... 1

Stenosis of bronchi by pressure of aneurism..... 1

#### Gastro-intestinal tract.

Epithelioma of tongue ..... 1

##### Liver.

Abscess of liver ..... 1

Cirrhosis of liver ..... 6

##### Intestine.

Tuberculous entero-colitis ..... 3

Acute enteritis ..... 1

Carcinoma of pancreas ..... 1

Sarcoma of pancreas ..... 1

Carcinoma of sigmoid ..... 1

#### Typhoid fever.

With hemorrhage ..... 2

With perforation ..... 4

#### Peritonitis.

Acute septic ..... 10

Subphrenic abscess ..... 1

## GENITO-URINARY SYSTEM.

### Kidney.

Chronic diffuse nephritis .....	20
Hydronephrosis .....	2
Pyelonephrosis .....	1
Septic endometritis .....	3
Uterine carcinoma .....	7

## DISEASES OF THE BLOOD-MAKING ORGANS.

Pernicious anæmia .....	1
Myelogenous leucæmia .....	2

## UNCLASSIFIED.

Addison's disease .....	1
Diabetes .....	1
Sarcoma of suprarenal .....	2
Sarcoma of left arm .....	1
Sarcoma of peritoneal cavity .....	1
Lympho-sarcoma of kidney .....	1
Hydrocephalus .....	1
General miliary tuberculosis .....	1

Forty-nine specimens of blood were received for the Widal serum test for typhoid fever. Of these, eighteen were negative and thirty-one positive.

The number of specimens received for diagnosis from the surgical divisions was 350. These may be tabulated as follows:

## MATERIAL RECEIVED FROM THE SURGICAL DIVISIONS FOR EXAMINATION.

### TUMORS.

Branchio-genetic cysts .....	1
Carcinoma of breast .....	23

# PROSPECTUS OF ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK

---

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person, or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the Training School:

Candidates must be from twenty-three to thirty-three years of age. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact. They must also give the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other Training Schools. The reasons for rejection are not given either to applicants for admission or probationers on duty, neither are letters addressed, personally, to the authorities of the Hospital returned.

Candidates for admission are not received in classes, but individually as the work of the Hospital requires. Classes are formed at the convenience of the school.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital requires. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Accepted candidates, while awaiting a call, should prepare themselves for their class work by studying Anatomy and Physiology. The class book used in St. Luke's Training School is "Kimber's Anatomy and Physiology for Nurses."

Any change of plan, or of address, on the part of a candidate,

whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. Twenty-four pieces are allowed for the laundry each week.

Each probationer, who passes through two months of trial, will be admitted to the school and will then be required to sign a written agreement to remain in the school for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of nurses for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

Nurses after they are admitted to the school are required to wear the Training School uniform while on duty. In addition to board, lodging, and laundry each nurse receives ten dollars (\$10) per month during her whole course, for dress, text-books, and other expenses in connection with her work. It is considered that the education given during the course, is a full equivalent for services rendered.

The uniforms belong to the School, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7:30 P.M., for day staff; 7:30 P.M. to 7 A.M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 2 to 7:30 P.M. Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the Hospital, as may be necessary.

Three weeks' vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the School, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the School. If readmitted, she must begin her course anew; provided, however, that this rule may be modified by the Training School Com-

mittee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a Committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the School are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the School for reasons which to the Hospital may seem sufficient.

# ADMISSION OF PATIENTS

---

## DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but (with the exception of the "House of Rest for Consumptives" patients) not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious disease, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

## MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications from *out of the city* should be made in writing to the Pastor and Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room, is desired. If latter, at what price, and on which of hereinafter named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

## RATES OF BOARD.

### GENERAL WARDS.

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under twelve years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment, in whole or in part, must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

### PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

### PRICES OF PRIVATE ROOMS.

Single rooms from \$3 to \$6 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

### AS TO FEES.

No Officer, Nurse, or Servant is allowed to receive any fee or gift from a patient.

## PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions :

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the Attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own Staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

5. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

## RULES FOR PATIENTS

---

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments, and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctors' regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Pastor and Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Pastor and Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other vendors not allowed in the buildings.

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman, not in the house, he must signify the same to the Pastor or Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

## REGULATIONS FOR VISITORS

---

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M. Ushers will be in attendance to show visitors over the buildings.

2. The friends of patients are admitted to the general wards from 2 to 3:30 P.M. on Tuesdays and Fridays, and on Sundays from 4:45 to 5:30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily, from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 10 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sundays at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.
